

God's Always Right On Time

CAPO + 3

(Israel) came up to the waters edge. Pharaoh's armies followed close behind.
 The people had nowhere to go. (And the) outlook wasn't so bright.
 (But when) Moses started to prayin', The Red Sea, it split in two.
 God had a miracle-just-in-time. And he got one now for you.
 I say, God's always right on time.

(So) raise your hands and praise the Lord, Whatever your circumstance.
 (Taking good care...) (He won't leave anything...)
 God is gonna take care of you, He's not leaving anything to chance.
 If you only knew what God was doing right now, you'd be thanking him day and night.
 Because God's always right on time. (Repeat Intro)

Well they threw Peter in a prison. They were certain he was gonna die.
 (But the) saints of God started praying, (and) They continued most of the night.
 When an angel came to Peter's cell, the chains fell right off his hands.
 He was freed just-in-the-nick-of-time, The same God's gonna loose your bands.
 I say, God's always right on time. (CHORUS)

When you've got your back against the wall, Don't know how you're gonna provide.
 Start talkin' to the one who has it all, He'll send a blessing when the time is right.
 (A check will) come in the mail, unexpectedly. (Or you'll find) money on the street.
 He's the God who is full of such miracles, And He's got one to meet your need.
 I say, God's always right on time. (CHORUS)

When you've got a heavy burden, Or a weight you can hardly bear.
 When you're strength is near to failing, You've got a God who surely cares.
 He will send strength in the morning, And perseverance through the night.
 (Cause) Jesus is a burden bearer, And by his Word he makes loads light.
 I say, God's always right on time. (CHORUS)

So if you've been seekin' the holy Ghost, Or you're hungry for a touch from God.
 God's grace is now at work in you, Cause not everyone has such thoughts.
 (Do you) hear the wind stirring in heaven, (Do you) feel the rain startin' to fall.
 Start praising the Lord right now, 'Cause you don't have to wait anymore.
 I say, God's always right on time. (CHORUS)

When your body is
 sore afflicted
 when an ailment
 has got you down
 There's a cure just
 around the corner
 I think I feel one
 coming now.
 Let the master
 pour oil on you.
 Let the holy ghost
 power go through.
 You can praise him for
 his healing power
 It's his time, and that's what he
 do.
